Part Number Update

Subject: Bendix Releases Knorr-Bremse ABS Product Line

Effective June 1, 2002, all Knorr-Bremse ABS products previously available through Eaton will be directly available through Bendix Commercial Vehicle Systems LLC. These Bendix KB products offer both Cab and Frame mount ABS systems for Power Vehicles including 24V systems for Transit Bus and Military applications. A full range of trailer ABS systems is also available. Many of these systems are presently offered on different vehicle platforms and provide a reliable ABS for many fleet users. Combined with the present Bendix ABS system this Bendix KB system provides the most extensive range of ABS products in North America.

The list below contains all the parts presently available through Eaton. For ease of transition the same part numbers are retained through the Bendix system.

For ordering please contact your local Bendix representative or distributor or call Customer Service @ 1-800-AIR-BRAKE.
