Subject: **Obsolete Bendix® OEM Air Disc Brake Pad Kit Part Number and Superseding Replacement Kit**

Effective December 31, 2020, Bendix will obsolete K070796 (BX275™) ADB22X® genuine Bendix OEM replacement air disc brake pad kit due to copper compliance standards which take effect on January 1, 2021. The EPA Copper-Free Brake Initiative agreement limits the amount of copper in brake pads to no more than 5% by weight for Level B designation.

Customers may order K129276 (BX276™) in its place. This pad is copper-compliant through December 31, 2024. The BX276 pad has up to 40% longer life, fits most applications, and maintains the Bendix 5-year air disc brake warranty.

| Obsolete Part No. | New Part No. | Description |
|-------------------|--------------|---|
