

NEW QUICK RELEASE VALVE

The quick release valve is used for rapid pressure reduction of large air volume.

Knorr-Bremse is continuously improving its product ranges in order to offer its customer products in balanced variance, which keeps the application coverage at a high level and the storage efforts on a minimum at the same time.

Therefore, a part of the Knorr-Bremse Quick Release Valve portfolio will be reduced from two to one part number. The new part number is a full compatible one to one replacement for both old versions with exactly the same port dimensions.

Please find the list on the second page.

At a glance

- > Less part numbers, less handling and storage costs
- > Well-known Knorr-Bremse quality

OVERVIEW QUICK RELEASE VALVES

Knorr-Bremse IAM part number	Replaced part number	Old type number	Dimensions of the ports
K162630N00	I92200	RE2118	M22x1,5
	I70676	RE2108	

The existing stock can be used up, but please use the new part number for your next orders.

EVERY VEHICLE TELLS ITS STORY.
KEEP IT RUNNING
