

Please select the level of Brake-School access desired & associated costs:

Level 1: Self-Service by Individual

- Individual employees each set up their own unique accounts
- Individual employees log in to site with the unique user name and password they establish
- Employees have access to all public content on the site
- No customization of content and no co-branding options available for your business
- Individual users can run grade reports for their enrolled courses
 - No overall user roll-up reporting capability for total employee population
- Cost: Free

Level 2: Establishing a Unique Channel with Basic Reporting

- Your business (customer) provides Bendix with an Excel document of their users and Bendix creates unique accounts for each employee
 - Employees are given a unique user name and an initial common password
 - At initial log in, each individual will be prompted to change the password
- Customer site is co-branded with company logo and Bendix logo
- Customer is assigned a unique website url (ex: www.brake-school.com/customer)
- Site administrator has the ability to add and delete users whenever necessary
- Customer can further personalize their channel by enabling links to their company website and social media sites from their Brake School home page
 - In addition, the customer can also choose to list up to three additional website links from the home page
- Course Enrollment Options:
 - Site administrator has the option to pre-enroll all students into any or all of the available courses
 1. A pre-enrollment notice detailing the courses and course descriptions will be provided to the Administrator to complete the enrollments
 - Students must take all pre-enrolled course selected for them but also have the opportunity to self-select any other available courses
- Ability to run basic site reports
 - Reports can be run by user name or by course
 - Reports can be exported to Excel
- Ability to assign up to five Report Administrators to the channel (in addition to the Site Administrator)
 - Report administrators have the ability to run reports on company users
- Site Administrator has access to 24/7 troubleshooting via on-site tutorials
- Please 15 business days for your brake-school channel activation
- Cost: \$2,500
