

UP2DATE

READY TO SERVICE: NEW SUPPLEMENTAL TOOL KIT

Additional tools for lately introduced Double Roller Bearing of the caliper's floating bearing side.

When Knorr-Bremse introduces new components or technology to its pneumatic Disc Brakes, it is particularly important that the right tools are on hand to carry out a quick and efficient service.

Only recently, Knorr-Bremse introduced a new Double Roll Bearing for the caliper's floating bearing side for SN7-HP, as well SM7/SL7 Air Disc Brakes, which will gradually be incorporated into other applications.

To service the new Double Roller Bearing cartridge, additional tools are required which are supplied with the new Supplemental Tool Kit **K209211K50**. In combination with the standard **Tool Case K158880K50** for Air Disc Brakes, a complete and comprehensive service for Knorr-Bremse Air Disc Brakes and Calipers can be performed.

At a glance

- › Continuous expansion of the tool program
- › Developed in cooperation with leading companies producing special tooling
- › Easier, safer, faster and more cost-effective maintenance
- › Up to date service solutions for Knorr-Bremse Air Disc Brakes
