Subject: Bendix® ESD-225™ Air Disc Brake (ADB) Rotor Service Kits

The table below shows the aftermarket Bendix® ESD-225™ Air Disc Brake hub and rotor assemblies and their respective rotor service kits.

Note that wheel hubs, which typically have a much longer normal service life than the rotor, are sourced directly from the vehicle OEM or one of the two (2) the hub suppliers shown below.

The part numbers below represent a simplification of previous service numbers and allow a smaller inventory to cover more applications.
