BENDIX® REMANUFACTURED STEERING GEARS

Bendix® remanufactured steering gears are just that – remanufactured, not rebuilt. Integral to the safe operation of the vehicle, the gear transmits the driver's steering inputs from the steering wheel to the steering linkage, which ultimately turns the wheels. Bendix reman steering gears deliver a high-quality product at a cost-effective price that will fit any budget. Our decades of OE-experience deliver the confidence and peace of mind you expect when it says Bendix.

Why Bendix remanufactured steering gears? It's simple...

- **Quality Remanufacturing**

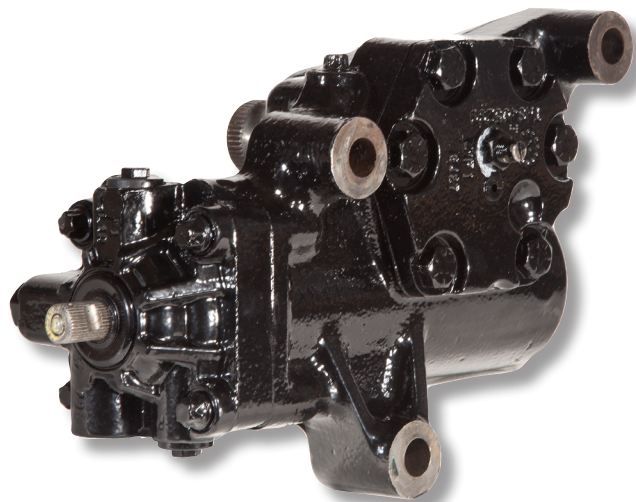

- o 100% end-of-line testing
- o Full replacement of seals and wear parts
- o ISO9000: 2015 production facility
- o Warranty: 18 months

- **A Broad Product Offering**

- o 365 part numbers across 34 product families
- o Coverage for 30+ years of OE production
- o 200 of the most popular part numbers in stock

- **We've Got the Tools to Help Grow Your Business**

- o Online cross-reference tool available on the Steering Gear product page on b2bendix.com.

**When quality is what you want, Bendix is what you need.
