How to Search on B2Bendix.com

There are three main search options on the site:

Site Search	Search box / icon located at the top of each landing page
Product Drilldown	Menu located under the Product tab at the top of each landing page
Product Categories	Visual list of the Product Drilldown menu found on the home page below the announcements.

1. Site Search

Enter a part number, type number, title or document details

2. Product Drilldown

Site Search

This is the most powerful and recommended search tool on the site and searches the following data fields:

Bendix Part Number	Part number ID used by Bendix
Bendix Product Type	Product model designation (MV-3, AD-9, D-2, etc.)
Bendix Product Description	Key words in product description (Dryer, Governor, Radar, etc.)
Customer Part Number	Part number ID used by direct Bendix customer(s)
Competitive Part Number	Part number ID used by direct Bendix competitor(s)
Document Number	Document ID used by Bendix
Document Description	Key words in the title of a Bendix document
Document Type	Key words in the type of Bendix document (instruction, service data, manual, video, etc.)
Software Group	Key word in the product group related to the software package
Software Type	Key words in the type of Bendix software (TPMS, camera, etc.)
Software Package Type	Either software update or firmware update

Organizing your Search Results

The site search is very quick and robust. The site search is not sensitive to proper case or special characters. Once you complete your initial search, the results are always organized into four main categories:

The screenshot shows the B2Bendix.com search results page for 'BA-921'. The page is organized into four main filter categories, highlighted with red boxes and numbered 1 through 4:

- Type Number** (25 items)
- Description** (26 items)
- Market** (13 Aftermarket (New), 11 Aftermarket (Remanufactured), 2 Original Equipment)
- Sales Status** (26 For Sale)

The search results show 26 items found, sorted by Part Number Ascending. Three items are displayed:

Part Number	Description	Status	Action
5010806	BA-921 Compressor	For Sale Aftermarket (Remanufactured)	Sign In, Compare
5012533	BA-921 Compressor	For Sale Aftermarket (Remanufactured)	Sign In, Compare
5016859	BA-921 Compressor	For Sale Aftermarket (Remanufactured)	Sign In, Compare

Search Tips and Tricks

In many product search examples, there are additional technical facets available to the user for further filtering:

The screenshot displays the B2Bendix.com search results interface. On the left side, there are five expandable technical facets, each highlighted with a red border and an upward-pointing arrow icon:

- Delivery Port 1**:
 - 1/4-18 NPT (Female) (11)
 - 3/8-18 NPT (Female) (53)
- Delivery Port 2**:
 - 1/4-18 NPT (Female) (11)
 - 3/8-18 NPT (Female) (53)
- Delivery Port 3**:
 - 3/8-18 NPT (Female) (2)
- Differential Pressure**:
 - 0 PSI (26)
 - 1 - 4 PSI (7)
 - 1 PSI MAX (18)
 - 10 - 16 PSI (2)
 - 5 - 8 PSI (11)
- Exhaust Port**

The main content area on the right shows a list of product results. Each result includes a Bendix logo, a product number, a description, and a status:

- 107261** QR-1 Quick Release Valve For Sale Original Equipment
- 107261N** QR-1 Quick Release Valve For Sale Aftermarket (New)
- 229813** QR-1 Quick Release Valve For Sale Original Equipment
- 229813N** QR-1 Quick Release Valve For Sale Aftermarket (New)

Each product listing includes a 'Compare' checkbox and a 'Sign In' button. The top navigation bar includes links for PRODUCTS, SERVICE & SUPPORT, E-LEARNING, WARRANTY, CORES, and HELP, along with a search icon.
