Subject: NEW TRAILER ABS SERVICE KITS

There are a small number of older MC-12 trailer ABS systems in the field that used a 3 and 4 pin pigtail. These kits have been released to support these installations. These kits are identified in the last three columns of the first section in bold part numbers. These are the only changes made to the cancelled PNU this replaces.

When replacing an MC-12 with an MC-30, a pigtail harness will also be needed. Choose one of the following MC-30 service kits based on the pigtail harness currently installed on the vehicle. The length and number of pins of the Power/Warning Lamp Connector Lead must be considered.								
TO REPLACE:				(Ver.1) MC-30 Service Kits For MC-12 Units				
				5-Pin Pigtail (Short)	5-Pin Pigtail (Long)	4-Pin Pigtail (Short)	4-Pin Pigtail (Long)	3-Pin Pigtail
				5004476 (18")	5004835 (120")	5002775 (18")	5002775 (96")	550372 (11")
				5004477 (60")	5004478 (180")			550559 (24")
					5004834 (234")
