Subject: **209796 Tractor Conversion Kit**

209796 Tractor Conversion Kit specifically designed for 121 Ford "L" vehicles is now available.

This kit contains all pneumatic components, tubing and fittings necessary to equip a straight truck chassis with tractor protection valves and a TC-2 hand control valve.

It should be noted that the installation of this kit will alter the braking performance of a 121 vehicle, and may effect the vehicle's compliance with F.M.V.S.S. 121. Additional vehicle testing is required.
