

Part Number Update

Bulletin No: PNU-194

Effective Date: 02/24/2020

Cancels: Same dated 9/24/2014

Page: 1 of 4

Subject: **Bendix™ Forward-Looking Radar (FLR) Sensor FLR-10™ to FLR-20™ Upgrade Kits for Kenworth® & Peterbilt® Vehicles - UPDATE**

Service and remanufactured Bendix™ FLR-10™ radar sensors are no longer available. Effective immediately, Bendix™ FLR-20™ radar sensor kits will be used as replacements/upgrades for most Kenworth® and Peterbilt® vehicles originally equipped with Bendix FLR-10 radar sensors.

Kits include a remanufactured Bendix FLR-20 radar sensor, bracket, harness adapter, hardware and the connector mating kit needed to perform the installation. An alignment tool (see page 3) and digital inclinometer will also be required to complete the installation and alignment.

Return the Bendix FLR-10 radar for Core credit using the Core return upgrade tag — included in the kit — to receive a full core credit at the Bendix FLR-20 radar level.

Note: Return Bendix FLR-10 radar sensors for Core credit.

Core Exchanges

Since the Bendix FLR-20 radar sensor replaces a Bendix FLR-10 radar sensor, when returning the FLR-10 radar for Core credit it is important to use an orange BW1829 upgrade tag. This will alert the plant that the core is eligible to be applied to the Bendix FLR-20 radar sensor Core group.

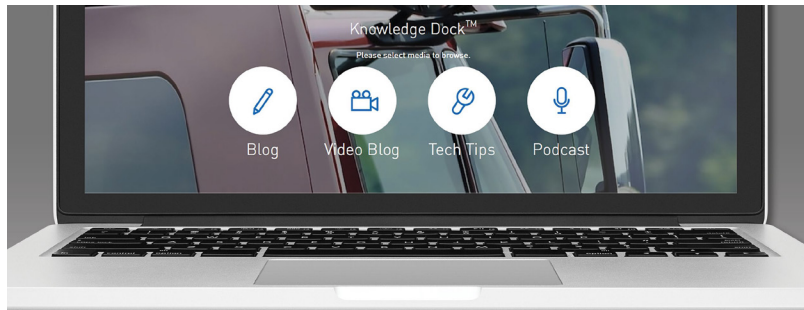

Orange Upgrade Tag (included)
